EDUCATION

R.R. Group of Institution Lucknow, Uttar Pradesh, India *(2022-2026) | CGPA: 8.04*
Bachelor of Technology – Computer Science & Engineering

EXPERIENCE

Cloud Engineering Intern (HEPro.in) *(Dec'25-Jan'26)*

- Deployed a secure, cloud-based Task Tracker utilizing **AWS S3, CloudFront, and Cognito**; successfully configured custom **DNS routing and HTTPS traffic flow** to ensure end-to-end encryption.
- Built and optimized **GitHub Actions CI/CD pipelines** to automate application deployment, reducing manual deployment time and minimizing configuration drift.

PROJECT

AI-Powered Customer Support CRM (GitHub) *(Jun'26-Jun'26)*

- Engineered a highly scalable, full-stack CRM utilizing **FastAPI** and **React.js** to handle real-time customer support workflows.
- Integrated an **AI-driven text classification engine** to automatically categorize and assign priority levels to incoming tickets, accelerating issue assignment efficiency.
- Containerized application environments using **Docker** and orchestrated seamless deployments to **Render** and **Vercel**, maintaining independent frontend/backend lifecycles.
- **Tech Stack:** React.js, FastAPI, SQLite, SQLAlchemy, Axios, Git, GitHub, Vercel, Render.

Real – Time Face Recognition Attendance System (GitHub) *(Nov'25-Feb'26)*

- Developed an automated attendance pipeline using **OpenCV** (Haar Cascades and facial encodings), optimizing log generation speed.
- Architected a cloud-deployable infrastructure on **AWS EC2 and S3** for secure image storage, **reducing manual administrative overhead by 80%** and improving tracking accuracy to **90%**.
- Built a robust management dashboard using **Django** and **MySQL** to query, filter, and auto-generate comprehensive compliance reports.
- **Tech Stack:** Python, Django, OpenCV, AWS(EC2, S3), Git.

TECHNICAL SKILLS & INTERESTS

Cloud & DevOps: AWS (EC2, S3, IAM, CloudFront, Cognito), GCP & Azure (Basics), Docker, CI/CD (GitHub Actions), Shell Scripting, Linux CLI
Programming Languages: Python, JavaScript, C
Version Control: Git, GitHub
Frameworks & Libraries: FastAPI, Django, React.js, SQLAlchemy, Axios
Databases & Analytics: MySQL, SQLite, Microsoft Excel (XLOOKUP, VLOOKUP, Pivot Tables, Conditional Formatting)
Core Computer Science: Data Structures & Algorithms (DSA), Operating Systems (OS), DBMS, Cloud Computing

CERTIFICATION

- Oracle Cloud Infrastructure DevOps Professional – **Oracle**
- DevOps with Cloud, Docker, CI/CD & Ansible – **Udemy**
- **CS50x** – Introduction to Computer Science – Harvard University
- **Python with Django Summer Training** – TECHPILE
